YOUR ADVANTAGES

Take advantage & increase your success.

- Differentiation will set you apart from the norm with the brand new SIROLaser Advance therapy.
- Increase your clinical success with faster and better results.
- Provide your patients with extended treatment alternatives.
- SIROLaser Advance allows you to optimize your treatment process using the latest technology.

Enjoy the fact that your patients will be happy to recommend you to friends & family.

YOUR ADVANTAGES DURING LASER THERAPY

Easy to put into practice.

Obtain faster and better results in minimal invasive surgery, e.g. frenectomy.

Using the SIROLaser Advance you can avoid stitches and scars with only a tendency for slight bleeding. **This means painless operations and minimal post-operative discomfort for your patients.**

SIROLaser Advance for pain therapy, e.g. for herpes.

In this case SIROLaser Advance therapy provides immediate pain relief and shortens the infection period. Re-infection is also delayed. **Provide your patients with a high level of care.**

SIROLaser Advance provides you many other applications such as effective germ reduction in the treatment of endodontics and periodontology.

Give you & your practice the complete all-round service your patients deserve.
