

for **max**

The Formax is an advanced aesthetic work station for multiple treatments that employs unique Dynamic Pulse Control technology (DPC). DPC enables safe delivery of a range of professional applications for the growing aesthetic and anti-aging markets. Thermo-electric skin cooling, precise optical filtering and unique energy pulsing assure high treatment efficacy while maximizing patient safety and comfort.

It's more economical than other systems I work with, which is significant for me in the long run.

Edgar Kaufman, M.D.
Aesthetic Specialist, AML Clinics

DEDICATED TO YOU

SharpLight™

Hair Reduction: Non-invasive, clean and relatively painless treatment for permanent reduction of hair on any body area. Typical regimen: 5-7 treatment sessions, spaced 4-12 weeks apart.
